### The Power of Play: An Educational Foundation to Build On

Studies show that young children learn best through hands on, guided play. In fact, research shows "that every competency important to school success is enhanced by play."

(Isenberg & Quisenberry, 2002; Singer, 2006)

On any given day, the students in our 4K and EC-3 class are up to their elbows in paint, shaving cream, pancake batter and any number of other interesting materials and activities. Our play-based curriculum is serious fun and lays the groundwork for our students to perform to the best of their abilities throughout elementary school, middle school and beyond.

### Our Curriculum

Our blended 4K/EC-3 program provides each child with a variety of rich experiences that foster their personal growth. We help your child develop:

- Gospel values by simple activities and prayer.
- Socialization skills that will help them to develop an awareness of self and others as members of a community.
- Fine and gross motor physical coordination skills
- Mathematics readiness which is developed through discovery activities, concrete experiences and playful creativity.
- Reading/pre-reading and writing skills.

***Our classes attend Spanish, Music, Art, Library and Physical Education classes.***

### Our Staff

**Mrs. Michelle Jacques** teaches our EC-3/4K program. She graduated with an associate degree in Early Childhood Education, and currently is pursuing her B.S. in Education. In addition, Mrs. Jacques is a certified paraprofessional with the Green Bay Public Schools.

Mrs. Jacques owned and operated state licensed child care centers for seven years. She worked for the Green Bay Public Schools as a paraprofessional-teacher's assistant, specifically with early childhood and kindergarten children with special needs. Mrs. Jacques taught preschool at the YWCA, Trinity Catholic School and now here at Holy Cross Catholic School.

**Mrs. Cathy Zehms** is the teacher's aide in our EC-3/4K program. She has a degree in English Literature and Language. She also serves as the school's development director.

### Family Friendly Programs Help Busy Families

From childcare to school nutrition to transportation, we offer a variety of programs that take into account the busy lifestyles of growing families.

#### Busing

Free bus transportation is available to any student (4K to grade eight) living within our school boundaries. Others wishing to ride the bus may make arrangements for bus transportation through First Student Bus Lines.

#### Morning Nutrition Program

The program offers students a variety of healthy choices each day, including cereal, milk and fruit provided daily, all at an affordable price.

#### Lunch Program

Our lunches are prepared daily on site by our school nutrition professionals. Lunches include a salad bar, fresh fruits and vegetables, whole grain breads, and milk. Mrs. Zahn and Mrs. VerHaag make a point of getting to know each child, and use lunchtime as an opportunity to teach kids the importance of healthy eating habits.

#### Extended Care Program

Parents love this program! We offer an Extended Care Program for children age four and up from 6:30 am until school begins and again after school until 6:00 pm. Extended Care is staffed by school faculty and staff.

#### Summer Care Program

Summer child care is offered throughout the summer months, June through August, for 12 weeks for children age four and up. The program runs from 6:30 am to 6:00 pm. Kids enrolled in summer care enjoy crafts, games, outside time, and walking field trips.
